- Natural cleaning - also for dishwashers
- Get campers, boats & jet skis ready
- Sustainable cleaning solutions for the hospitality industry
- CCM® 7665 Aircraft Dry Wash & Polish
- Liquid Glass Coating for Phone Screen Protectors
- Spring: Protect outdoor surfaces – actively and sustainably
- PFAS-free Liquid Glass coatings

NATURAL CLEANING – ALSO FOR DISHWASHERS

More and more consumers are rethinking conventional dishwasher tabs and looking for more sustainable alternatives for everyday household cleaning. Topics such as biodegradability, reduced packaging, flexible dosing and a more conscious use of cleaning products are becoming increasingly important. Against this background, another application area for Biosativa® Bio Cleaner is gaining attention: Its use in dishwashers as an alternative to conventional dishwasher tabs.

GET CAMPERS, BOATS & JET SKIS READY

With the first warm-days, preparation for the outdoor season begins. Now is the right time to thoroughly clean and protect campers, boats and jet skis.

CCM Biosativa® Bio Cleaner ensures effective and environmentally friendly cleaning. Liquid Glass coatings provide long-lasting protection for all surfaces and make future maintenance easier.

For an optimal start to the season – with clean, protected, and high-quality surfaces.

LIQUID GLASS COATING FOR PHONE SCREEN PROTECTORS

Screen protectors are part of everyday life - but fingerprints, micro-scratches, and wear and tear can quickly detract from the user experience.

With CCM's globally renowned TÜV-certified Liquid Glass coating for screen protectors, you can extend their lifespan, improve touch responsiveness, and significantly reduce breakage, scratches and bacterial buildup.

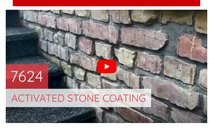
SPRING: PROTECT OUTDOOR SURFACES – ACTIVELY AND SUSTAINABLY



With **CCM® 7624 Stone Coating**, you go beyond conventional surface protection. This advanced solution combines deep-penetrating impregnation with active self-cleaning technology.

Thanks to integrated photocatalysis (TiO₂), organic contaminants are not just repelled – they are actively broken down under natural light. At the same time, the hydrophobic effect prevents water and dirt from penetrating the surface.

The result:
Surfaces stay cleaner for longer, with reduced maintenance and long-term protection against algae, moss, and environmental pollution.

Protect. Preserve. Self-clean.

PFAS-FREE LIQUID GLASS COATINGS

Starting in October 2026, the EU will prohibit certain PFAS substances (such as PFHxA) in various consumer products. Industrial applications (e.g. membranes, special filters and vehicle interiors) may also fall under a broader PFAS regulation expected as part of the upcoming REACH revision, which is still under discussion.
