Project:

ASCOTT MAKATI

Marble Top Wash Basin

Project: Coating of Marble Top Wash Basin at Ascott Makati, Philippines

Problem: Client wants their marble top to be glossy and protected from further degradation

Proposed Solution: Protect marble top with nanofied™ High Performance Coating (640)

Result: Marble top is still glossy and protected from further degradation even after 3 months of monitoring. Project was approved by Ascott Makati. Coating of more than 200 marble tops is on-going.

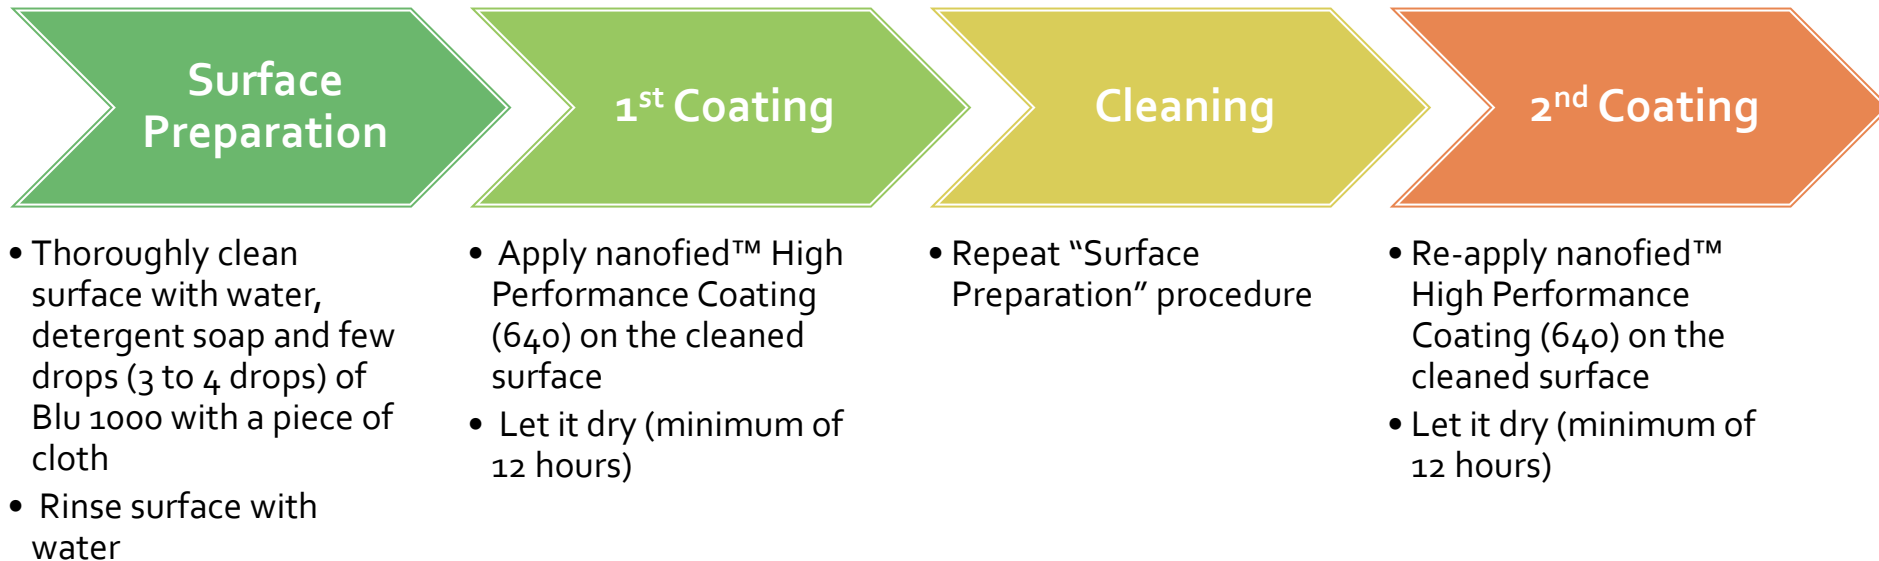

Before

After

Application Methodology

Note: Wash basin top is made of Marble. This coating might not work with other stone (i.e. Granite, Quartz, etc.). It is recommended to do a test to ensure effectiveness on other types of stone.
