CCM Liquid Glass Stone Coatings

Stone Coatings

www.ccm-international.eu

The new CCM® flyer
Stone Coatings is **online**.

We offer a range of outstanding coatings for stone.

These range from nano scale water based coatings (ideal for protecting monuments and shower rooms) to our micron scale coatings which offer world leading levels of protection for marble and high traffic areas.

Please contact us if you need guidance about your specific stone coating needs.

Our Best Seller:

7620 Penetrative Stone Coating

PENETRATIVE - FOR 10-20 YEARS

This coating is designed to penetrate deep into the structure of the stone.

After it has become established in the stone it provides strong hydrophobic and oleophobic protection. Specifically developed for natural stone and cementitious surfaces such as sandstone, limestone, travertine, concrete, pavers and brickwork.

This coating will remain highly effective for approximately 10-20 years.

Further information and video

7626 Graffiti Protection

A one pack single coat permanent non-sacrificial coating giving excellent protection against fly poster and graffiti attack. The product allows easy repeated removal of graffiti by using water/detergent. NOT a temporary or sacrificial, semipermanent graffiti protection.

PROPERTIES

- Transparent
- Permanent System (functional for up to 20 years and at least 20 times graffiti removal cycles)
- Graffiti is removable, in most instances
- With cold water and without chemicals
- Easy to re-coat in case of damage

Easy Clean Graffiti Protection
