## CLEANING A SKATE PARK WITH BIOSATIVA® BIO CLEANER

This well used Skate-park had to be cleaned prior to being sealed with a protective layer. The local council stressed that a completely environmentally friendly cleaner should be used. Biosativa® was spray applied at 1:20. The surface was then rinsed with a "light" pressure washer. The newly cleaned surface not only looks like new but cleaning with Biosativa® has resulted in the removal of oils and sugars, (from soft drinks).
