

## CCM® Environmentally Friendly Technologies

NEW: Soyeco Tablets  
Refillable Bottles, For Household Cleaning

Soyeco is a completely natural and ecologically benign line of products based on vegetable ingredients, natural essential oils, coconut oils, natural surfactants, plant glycerine and organic softening agents, which maintain balance within this exceptional technology. It is important to note that this cleaning technology is, entirely biodegradable and environmentally friendly.

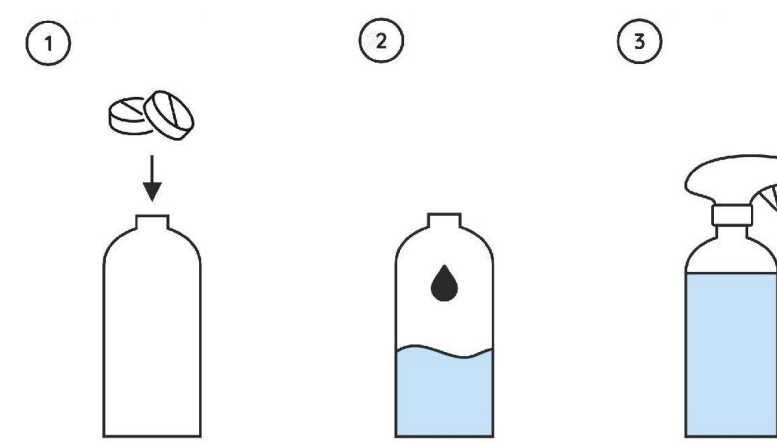

The products do not contain phosphates, parabens, artificial dyes, fragrances, microplastics, or products of animal origin.

### ATTRIBUTES

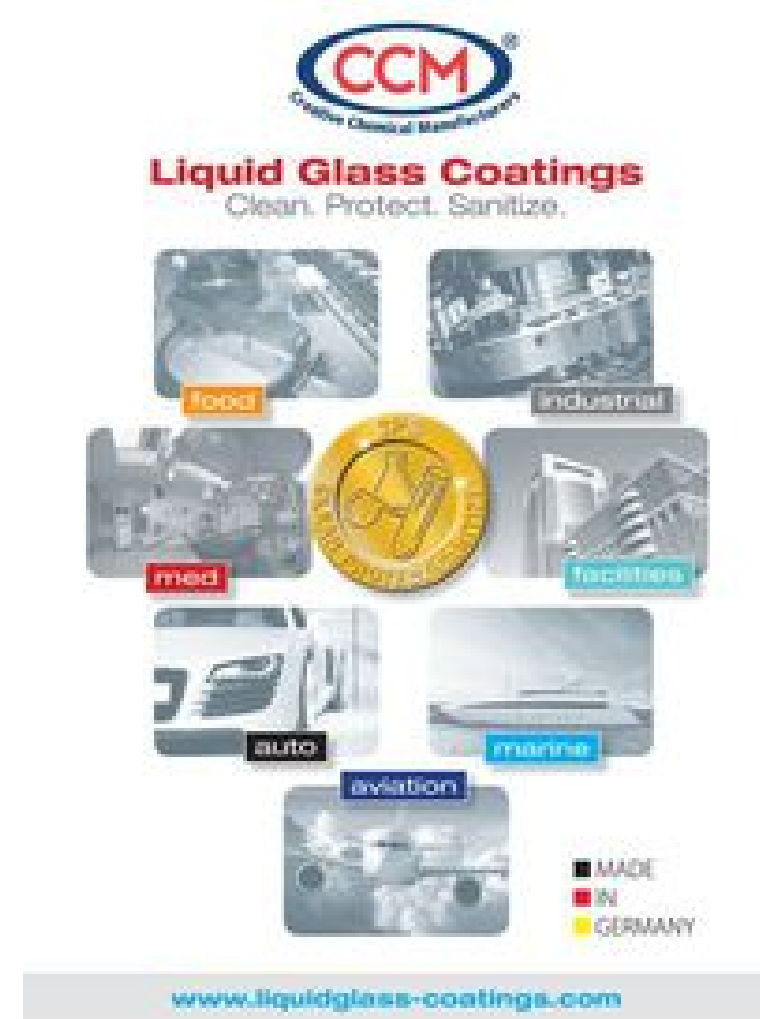

- Vegetable ingredients which are of course biodegradable
- Highly effective and more active than many chemical cleaners.
- Compounds from coconut oils and sugar which compose the essential tenside/surfactant component of the soyeco cleaner. These organic tensides serve as foaming and cleaning ingredients
- Vegetable glycerine works as a humectant (moisture absorbing), thus ensuring that wipes remain moist. In addition the glycerine acts as an emollient and so Soyeco is "soft on skin".
- Organic chelating compounds (softeners) ensure that the liquid maintains a natural and long lasting balance. This is especially valuable in hard water areas
- The use of Bioplastic ensures easy recycling of used bottles
- **ALSO AVAILABLE AS PRIVATE LABEL!**

### Advantages of the Tablet Refill System:

- Less waste
- Pro-Ecological
- Smaller Carbon Footprint
- Cheaper Transport & Storage
- High Value for money
- Safety of the user
- Refillable bottles
- High Quality
- **ALSO AVAILABLE AS PRIVATE LABEL**

All advantages and flyer [here](#)

### IMPORTANT INFORMATION PRICE INCREASES

So far, we have been able to keep our prices stable despite massive increases in raw material prices. Unfortunately, we now have to increase the prices of some products as of 01.11.2022.

Use the next few days to order at your current prices and contact us to find out about the highly competitive volume promotions we are still offering until then.

### CCM WINS "EMPLOYER OF THE FUTURE" AWARD

The **DIGITAL X** trade fair in Cologne took place on 13th & 14th of September. More than 300 leading companies presented "*the biggest megatrends of digitalisation*" which make "*technology tangible*".

The DIND German Innovation Institute for Sustainability and Digitalisation awarded the "Employers of the Future" awards during the fair.

CCM GmbH won the "**innovative, modern, digital**" prize.

CCM's Key Account Executive Manager Omar Boulkab received the prize from the former Federal Minister of Economics and Technology, Brigitte Zypries.

CCM has received many awards for the outstanding quality of the technology which we offer. This highly prestigious award recognises the highly innovative business model that we bring to market.
