CCM NEWS MARCH 2020

Hello from Overath,

Here is our latest news relating to our **hand and surface disinfection products**.

As you can imagine we are encountering with a very special situation with endless inquiries and subsequent orders. We really are trying our best to handle all requests as fast as possible, and so it is important for us to update you regularly.

Best wishes,

Bernd, Heiner, Gerd, Neil & the CCM Team.

HAND DISINFECTION - HAND DISINFECTION - HAND DISINFECTION - HAND DISINFECTION - HAND

**Hygienic hand
disinfection
with Aloe Vera**

In the past two weeks we got most inquiries and orders for **hand disinfection**.

Our alcohol based Dexan® hand disinfection provides the following properties:

- Highly effective
- Suitable for people who are susceptible to allergies (no added artificial colourings or scents)
- Long-lasting "protective film" technology
- Complies with European Hospital Sanitation norms
- With Aloe Vera

Situation availability:

We are continuously producing this product, so please send us your inquiry and we will let you know the current delivery time.

Bacoban® Long-Term Surface Disinfection

Bacoban® is a unique surface disinfectant which uses a semi permanent nano scale layer of SiO₂ (better known as Liquid Glass).

This layer holds within it, anti pathogen agents, which are slowly released whilst the surface is in place (up to 10 days). Not only is Bacoban® effective against bacteria but it is also effective against a wide range of pathogens.

Bacoban® closes the hygiene gap that arises between disinfection cycles. This allows for active infection control for an extended period.

Info about the availability:

Bacoban® water-based:

500ml bottle ready-to-use: Available at time of release of this news letter.

Concentrates: Available

Flow pack: Not available

Bacoban® alcohol-based: Available

SHORT DELIVERY TIME FOR DISINFECTION SACHET - SHORT DELIVERY TIME FOR DISINFECTION

Sachets for Surface Disinfection

There is a global demand for disinfection wipes due to the situation with the Corona virus. As a manufacturer of single packed wipes ("sachets") we are specialised in the production of your private label wipes in sachets.

As we formulate the liquid, print the sachet foil inhouse and produce all products at one location, we can offer you a quick and professional service, with short delivery times.

Advantages of supply model:

- Unique Bacoban® long-term surface disinfection with a proven efficacy of up to 10 days (see below)
- short production time
- workable MOQs
- Products "Made in Germany"

Please send us [your inquiries](#) and we come back to you with our offer.
