

CCM supports Uganda Care

CCM recently forwarded Bacoban anti Pathogen Wipes for use by the charitable organisation Uganda Care. Each year a group of doctors from the UK visit Uganda in order to offer their surgical skills to the local hospitals. The team of medics also supply equipment and sanitising products. Needless to say we were happy to contribute to this very worthwhile charity.

The team will return to Uganda next year and CCM will be contributing Bacoban in concentrate form so that the operating theatres and surrounding wards can be sanitised.

We congratulate Uganda care for their wonderful work.
