#### New brand name for the Car Coating Line

CCM Car Coatings has been re branded as "Q<sup>2</sup>" which refers to "Quantum Quartz Ultra-Coating Solutions". We decided that the term "ceramic coatings" is over used in the car coatings market. We wish to differentiate our high quality coatings from the many low quality coatings which have now entered the market.

As leaders in this market sector we recognize the need to constantly upgrade the portfolio of technologies which we provide.
