Worldwide leading platform with more than **1 million** webinar participants & **20,000** online

As you know our export rate is appr. 95%, and so we have decided to use a web based training platform in order update our partners, from around the world, about new products and technologies and also to address questions which we have received and which we feel our partners would like us to clarify and of course it is a great way to say "hello".

We will organize our first Partner Webinar on **Friday, Feb. 8th, 2019 at 4:30 pm German time**

Duration: Appr. 90 minutes

**Topics:**

- Hybrid Industrial Textile Coating:
- Hot Stuff Sneaker Coating

We have chosen the "Edudip" Online Platform for the seminar and **you will get an invitation via this platform in the next days.**

We strongly recommend that you to register for this on-line meeting as we think that these two new products are highly significant and will offer our partners the opportunity to offer a stunning technology, which is unrivalled. This status will allow our partners to become regional market leaders in fabric coating, in both the industrial and retail sectors.
