

Longterm shoe disinfection

Odour created as a result of perspiration occurs when bacteria (predominately *Brevibacterium epidermis* on feet) decompose sweat. Athletes foot is a very common skin disorder and it is often caused by pathogens such as filamentous fungi (dermatophytes) and yeast (candida)

Pedexan® provides a highly effective remedy as it...

- ✓ kills bacteria and fungi within minutes
- ✓ creates an environment in which micro-organisms are unable to survive.
- ✓ provides highly durable and long lasting protection
- ✓ effectively combats odors
- ✓ helps to prevent foot infections
- ✓ is bio-compatible

1000ml refill bottle
art. no. PED1000A

125ml pump spray
art. no. PED125A

Shoe Disinfection Dispenser with spray lance

Art.No.: PEDSPEND

- ✓ for fixed, large scale application or mobile use
- ✓ Ideal for the hygienic treatment of footwear, e.g. ski boot rental, bowling alleys, hospitals, poultry plants, gyms, orthopaedic technology centres, airports, etc.

Suitable for the 1-litre refill bottle.

Simple to apply

- ✓ Spray into the shoe.
- ✓ We recommend three applications per week.
- ✓ With regular application a „cumulative“ anti-microbial effect is created. This effect can last for several weeks.
