

Which Application / Which Coating?

Application	Coating	Rating	Comments
Alloy wheel	7660	**	Short term polish, appr. 3-6 months
	673	***	Best Price, for appr. one year
	7656	****	Best Quality, for appr. 1 year
	640	*****	Best Quality, for appr. 2-3 years
Anti-Mist on glass and mirrors	679	**	short term product, needs to be re-applied after approximately 7 days
Baking tray	640	****	Highly durable, for max performance, heat baking tray to 250°C for 2 hrs before use
Boat, above the water line	7675	***	for glass, metal and stainless steel surfaces
	673	***	for plastics, metal, GRP, glass & ceramic surfaces. Slightly less durable than 7675
	7656	****	for plastics, metal, GRP, glass & ceramic surfaces. Slightly less durable than 7675
	640	*****	Best Quality for all non absorbent surfaces
Carpets	695 / 697	***	Best Price
	7685 / 7689	****	Best Quality
	685 / 689	***	shortest drying time
Car interior / dashboard	673	***	Easy to apply after cleaning
	7656	****	Longer durable than 673
Car painting work	7660	**	Short term polish, approximately six months to one year
	673	***	Best Price, for appr. one year
	7656	****	Longer durable than 673
	640	*****	Best Quality, for at least 5 years
Car seats / upholstery carpets (textile)	695 / 697	***	Best Price
	7685 / 7689	****	Best Quality
	685 / 689	***	shortest drying time
Caravan, plastic surfaces	673	***	Best Price, for approximately one year
	7656 / 7658	****	Longer durable than 673
	640	*****	Best Quality, for at least 5 years
Ceramic surfaces, e.g. washbasin	7675 / 7678	***	Best Price
	7601 / 7608	****	Best Quality
Concrete (block)	620	***	Best Quality, penetrative coating
	695 / 697	***	Best Price, topographical coating
	704	***	very high hydrophobicity, might darken the color
	7628	***	additive for mixing into the concrete
Convertible top	7695 / 7689	***	Only suitable if the original coating is no longer in place
Cork	691 / 692	***	Check that cork is not already treated with silicone before applying
Corrosion protection	750	****	Highly durable anti corrosion over 50% solid content, quick drying
Glass, windows + canopy + conservatories	601/ 608	***	very good standard quality, improved durability
	7601/ 7608	****	Best Quality
	7675 / 7678	***	Best Price, standard quality
	640	*****	Best Quality with extremely long durability
Glass, baking oven & fireplace	640	****	coating for up to 800°C
Spectacles	673	***	Best Price
	7601/ 7608	****	Best Quality
Gold	640	****	Prevents abrasion of valuable gold surfaces
Graffiti Protection on walls	7626	****	durability of 20 years. Visible coating, in gloss or matt, ideal for industrial sites
Granite	640	***	
Gravestone, absorbent	620 / 695	***	620 for hydrophobicity 20+ years / 695 for hydrophobicity and stain protection 3-5 years
Grout, cement	620 / 695	***	620 for hydrophobicity 20+ years / 695 for hydrophobicity and stain protection
Leather	7625	***	The penetrative liquid offers good hydro / stain and water mark protection.
	691	**	Offers good protection to some leathers and good protection on suede.
Suede	691	***	
Marble	on request		
Mattresses	695 / 697/ 691	***	Best Price
	7685 / 7689	****	Best Quality
	685 / 689	***	shortest drying time
MDF	704	****	visible (glossy), massively durable hydrophobic coating
Metal	7660	**	Short term polish, appr. 3-6 months
	7675 / 7678	***	Best Price, for appr. one year
	7656	****	Longer durable than 7675
	640	*****	Best Quality with extremely long durability
Mobile Phone	7675 / 673	***	901 Mobile Phone Coating Kit
	640	*****	Best Quality, only for industrial customers, not for consumer
Painted Surfaces	673	***	Best Price
	640	****	Best Quality
Paper	691 / 692	***	Best Price
	7685 / 7689	****	Best Quality
	685 / 689	***	shortest drying time
Pillow	695 / 697	***	Best Price
	7685 / 7689	****	Best Quality
	685 / 689	***	shortest drying time

Plastics / Plastic surfaces	7660	**	Short term polish, appr. 3-6 months
	673	***	Best Price, for appr. one year
	7656 / 7658	****	Best Quality
	640	*****	Best Quality with extremely long durability
Rims	7660	**	Short term polish, appr.3-6 months
	673	***	Best Price, for appr. one year
	7656	****	Longer durable than 673
	640	*****	Best Quality, for appr. 2-3 years
Roof tiles	620	***	penetrative
	704	****	visible (glossy), massively durable stain resistance coating can be supplied in colours
shoes, leather	7625	***	
shoes, fabrics	695/97 / 691/92	***	Best Price
	7685 / 7689	****	Best Quality
	685 / 689	***	shortest drying time
shoes, sneakers	695/97/ 691/92	***	Best price
shoes, sport (polyamid fibres)	7685 / 7689	****	Best quality
shower cubide, glass	601 / 608	***	very good standard quality
	7601 / 7608	****	Best Quality
	7675 / 7678	***	Best Price, standard quality
shower cubide, plastics	673	***	Best Price, for appr. one year
	7656 / 7658	****	Best Quality
	640	*****	Best Quality with extremely long durability
Silver	640	****	prevents oxidisation of silver
Solar panel	601 / 608	***	very good standard quality
	7601 / 7608	****	Best Quality
Stainless Steel	7675 / 7678	***	Best Price
	640	****	Best Quality
Stone, flooring/natural absorbent	620	***	penetrative, solvent based
paving	695 / 697/691	***	topographical, water based
	704	****	visible (glossy), massively durable stain resistance coating
Tablet	7675 / 673	***	Best Price, 675 for glass 673 for non glass surfaces
	640	*****	Best Quality, only for industrial customers, not for consumer
Textile, e.g. cotton, upholstery	695/97 / 691/92	***	Best Price
	7685 / 7689	****	Best Quality
	685 / 689	***	shortest drying time
Tie	695/97 / 691/92	***	Best Price
	7685 / 7689	****	Best Quality
tiles, glazed	601 / 608	***	High durability and good quality
	7601/ 7608	****	Best Quality
	7675 / 7678	**	Best Price
Washbasin	7675/78 / 673	***	Best Price. The 673 is often used as our universal coating in bathrooms
	7601 / 7608	****	Best Quality
Windscreen / car glass / mirror	601 / 608	***	Best Price
	7601 / 7608	****	Best Quality
Wood need to be tested on different kinds of wood	695 / 697	***	on untreated wood
	704	****	visible (glossy), massively durable stain resistance coating
	7625	***	
	620	***	penetrative
